## Light House Tender Magnolia Goes Aground In The Mississippi River.

### WAS STRUCK BY A FRUIT STEAMER

#### President And His Party Taken Off By Revenue Cutter-- Today Is Roosevelt's Birthday--He Is Forty-Seven.

[SPECIAL BY SCRIPPS-M'RAE.]  
New Orleans, Oct. 27.—The light house tender Magnolia, with President Roosevelt aboard, collided with a fruit steamer, Esparata, near Nairn, La., shortly after midnight. The news reached this city through a message from Captain William Rose of the Esparata asking for assistance. Rose stated both vessels were aground on the river bank and said the Esparata will probably have to carry the President and party to the mouth of the river, where the West Virginia is waiting. No one was injured on either vessel. The tugs Wilnot and Woods left this city at four o'clock this morning for the scene. Nairn is about sixty miles below New Orleans in the west bank of the Mississippi. A telegraph operator at Esparata, five miles below Nairn, at 8:15 this morning stated that the Magnolia passed there at two-thirty, the right time for passing, and there had been no accident at midnight.

No Word in Washington  
Washington, Oct. 27.—Up to 10:30 no word was received at the White House regarding the accident to the Magnolia. Secretary Metcalf was unable to get into communication with the lighthouse service in the New Orleans district, but there is no fears felt here for the President's safety.

A Revenue Cutter  
New Orleans, La., Oct. 27.—A telephone message received by the United Fruit company from Pilotown says the revenue cutter Ivy took the President and party off the disabled Magnolia and proceeded down the river.

Is Aboard  
New Orleans, Oct. 27.—The President boarded the West Virginia at 9:40 this morning. He was given a salute of twenty-one guns. The boat weighed anchor immediately and sailed for the north.

Was Perfectly Cool  
New Orleans, La., Oct. 27.—When the ship struck, the President, who was sleeping, put on his glasses and remarked calmly: "It appears to me the boat has struck a snag." He offered no criticism and said he hoped he would not have to take a bath so early in the morning, but he could enjoy it if necessary. He had a message sent to Washington to be delivered this morning after breakfast, notifying Mrs. Roosevelt and Mrs. Rixey of the accident and assuring them that there was no danger. After the Ivy came alongside the President did not retire, but preferred to sit up in the cabin and enjoyed the accident hugely. It is said the pilot of the Esparata was wholly to blame.

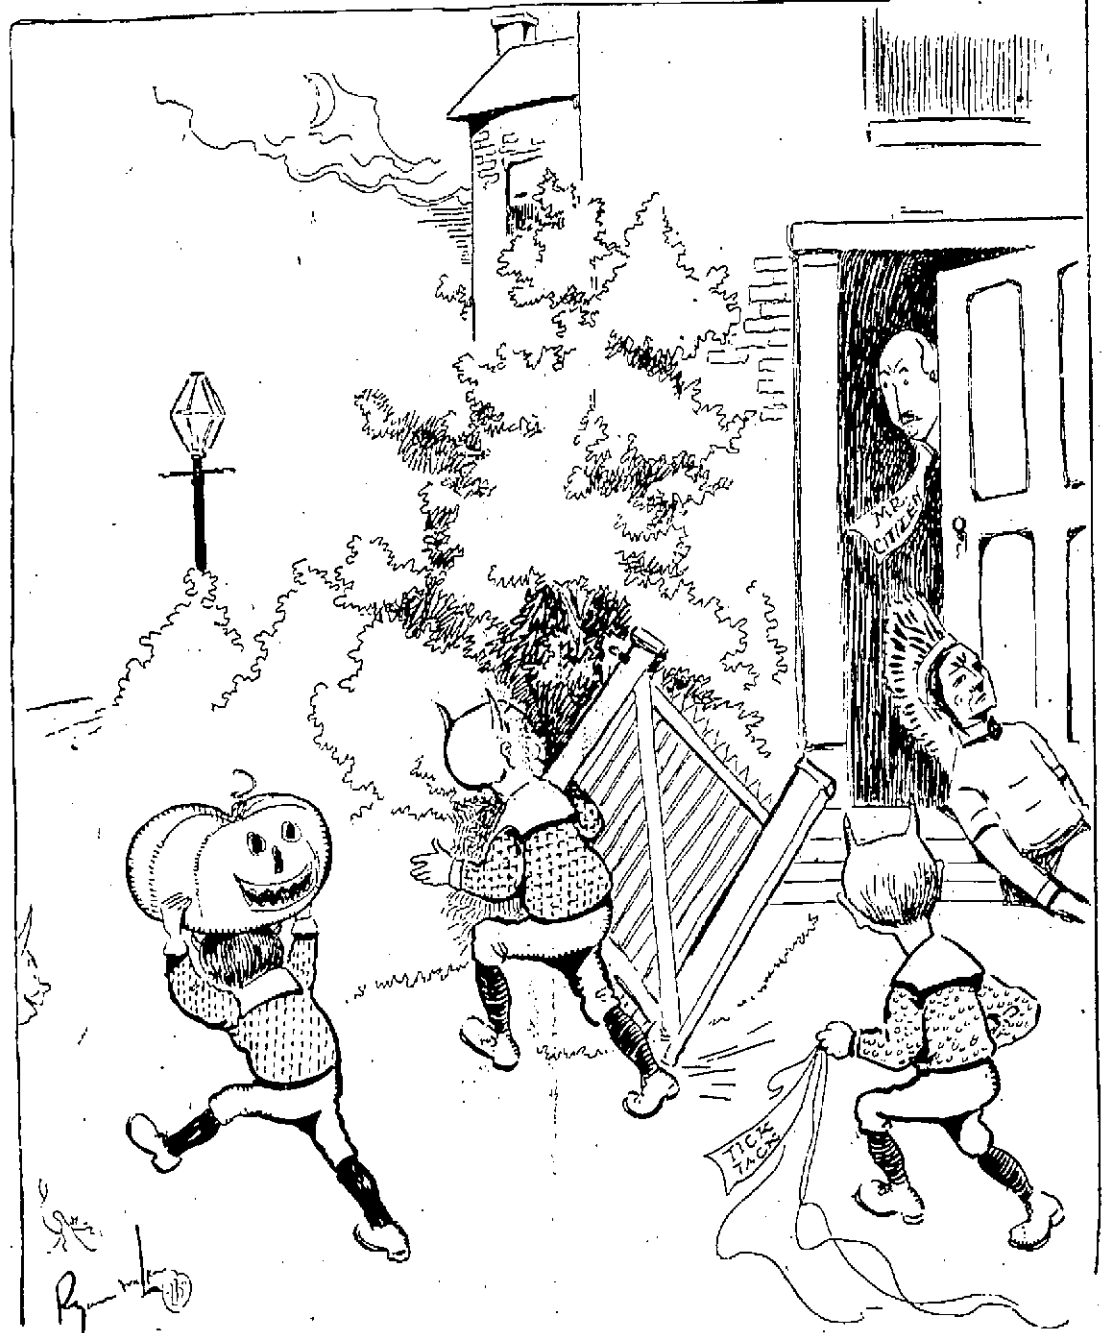

Full Report  
Washington, Oct. 27.—Commander Sears, commanding the Magnolia, wires to the lighthouse board that the Magnolia was struck about 11:00 o'clock last night on the forebide by the Esparata. Nine were hurt. The President's party was taken off by the Ivy. He says the Magnolia can be repaired.

Gave Luncheon  
Washington, Oct. 27.—Members of the President's party who left him at Memphis returned here today. President Roosevelt entertained at luncheon before his departure. Some one said that he would make many trips "next term." "There will be no next term," said the President. "I'm serving my last. I will not even be nominated."

[SPECIAL BY SCRIPPS-M'RAE.]  
Washington, D. C., Oct. 27.—Today, for the first time since he became an occupant of the White House, President Roosevelt passed his birthday away from home. The President was forty-seven years old today, having been born in New York city, Oct. 27, 1858. He is scheduled to leave New Orleans this morning on the cruiser West Virginia and will arrive in Washington early next week. When he reaches home he will find many birthday greetings from friends and admirers the country over, and also

#### Testimony Which Implicated England's King in Terrible Plot, Has Been Withdrawn.

London, Oct. 27.—Proceedings were continued today in the case of Hugh Watt, the ex-member of Parliament who is charged with attempting to bribe a private detective named Marshall to assist in murdering Watt's former wife. The case took a sensational turn several days ago when the testimony of Norman Battle, a cattleman, was withdrawn. Battle claimed that Watt and a man who described himself as an attorney to him, met him and promised him a large sum of money to leave and go to Canada. He alleged that the attorney said the case was to be "hushed up" by order of Edward VII, who was a friend of Lady Violet Watt, who is the daughter of the late Earl of Roden. She was named as correspondent in the first Mrs. Watt's divorce suit.

### JANESVILLE WELL UP ON THE LIST AGAIN

#### Madison First in Number of Attendance at State University—Milwaukee Second.

[SPECIAL TO THE GAZETTE.]  
Madison, Wis., Oct. 27.—The new student's directory which is now on the press, reveals a number of interesting facts relative to the attendance at the university this semester. Madison leads in the list of students, as it has in the past, with Milwaukee second and Racine and La Crosse tied for third place as regards the number registered from each city. The enrollment from the principal cities of the state is as follows: Madison, 546; Milwaukee, 279; La Crosse, 38; Racine, 38; Oshkosh, 28; Eau Claire, 23; Wausau, 23; Fond du Lac, 19; Janesville, 19; Appleton, 18; Wausau, 13; Chippewa Falls, 12; Portage, 12; Sheboygan and Green Bay are also well represented.

### STATE NOTES

Mayor Schultz of Neenah has given saloon-keepers sixty days in which to remove all slot-machines. Mayor Henning has done the same at Menasha.

E. J. Smith of Iowa City, Ia., pleaded guilty in the circuit court at Black River Falls to the charge of burglary and was sentenced to Waupun for two years.

Two little daughters of William Hagendorf of Racine slept all night in a bed with their mother dead beside them, and did not know it. The woman had died of heart disease soon after retiring.

Julius Hoernlein, president of the Horicon Wagon works, was kicked in the head by a horse which he was shoeing. His jaw was broken in two places and the bones of his nose shattered.

Attorneys for F. R. Sobenthal of Eau Claire have secured \$2,500 damages from the Minnesota Fair association as a result of a Ferris wheel accident in which his wife was killed and he was injured.

Dan Noble, who was sentenced at Prairie du Chien on Aug. 17 for burglary and escaped from the county jail the same night, has been recaptured by Sheriff Sims at Redwood Falls, Minn., after a hunt of two months.

An unusual case was discovered at Kenosha when Eugene Purcell, not yet 11 years of age, was arrested on a charge of intoxication. Two saloon-keepers, arraigned on a charge of selling liquor to the boy, pleaded guilty and were fined \$15 and costs.

An involuntary petition in bankruptcy has been filed by three of the creditors of the firm of Longtin & Brugger of Fond du Lac. The liabilities above the second claims are about \$6,300, while the secured claims are \$5,270, on a mortgage on the real estate.

W. G. Scott, chemist of the J. I. Case Threshing Machine company of Racine, has resigned and will go to California on Jan. 1. Since Mr. Schulte, formerly manager of the Milwaukee Harvesters works, became manager of the Case company, many changes have been made.

A head-on collision on the Milwaukee road at Harper's Ferry, near Prairie du Chien, between a passenger train and a fast stock train, smashed the two engines, a box-car, and mail coach. The train crews jumped, but the passengers were badly shaken up. No one was seriously hurt.

# GREAT REFORMS MAY COME NOW

### WITTE IS IN SUPREME CHARGE

#### Warsaw Said To Be Burning--Revolutionists Wait For Tomorrow To Renew Their Activities Once More.

[SPECIAL BY SCRIPPS-M'RAE.]  
St. Petersburg, Oct. 27.—A general quietness today exists, although the strike is spreading throughout the empire. There are some conflicts, but the great trouble is expected tomorrow. M. de Witte is supreme. He is exerting every effort to avert a calamity. It is reported that a fire was started in Warsaw last night and is beyond control and that portion of the city is doomed.

Witte's Enemies  
Authentic news from the court cannot be obtained. It is impossible to confirm the reports regarding Witte's standing. Witte's enemies say he is responsible for the government's threats to put down the rebellion by bloodshed.

Hold Yachts in Readiness.  
Apprehension apparently prevails in imperial circles. It is reported that the imperial yacht Polar Star is lying off Cronstadt, constantly under steam, and that the smaller yacht Strella is held in waiting at the wharf at Peterhof for emergency use.

Count Witte, even in advance of his formal appointment as premier, completely dominates the situation. Interesting details have been learned regarding Count Witte's interview with Emperor Nicholas last week, at which it was agreed that the time had come to limit the autocratic power and give the people a real share in the government of the empire.

The emperor asked Count Witte to speak frankly, and after listening to the statesman's exposure of the situation he appeared to be utterly unnerved by the deplorable state of affairs, and cried out that he was weary of the struggle and felt like leaving all and fleeing to Darmstadt, hence probably the origin of the report that the emperor was going abroad.

Count Witte, however, told the emperor that in his opinion not even a republic could now save Russia from anarchy. It was the emperor's duty to the people and the country to face the situation by meeting the classes,

### CUBANS EXPRESS A FEAR THEY WILL BE ANNEXED

#### Newspapers Hint That The American Minister Is Party To The Conspiracy-- Gomez After Weapons.

[SPECIAL BY SCRIPPS-M'RAE.]  
Havana, Oct. 27.—Talk of annexation to the United States, the outcome of the Anglo-Cuban commercial treaty, is characterized by administration newspapers as a conspiracy, to which it is broadly hinted, Herbert G. Squiers, the American minister, is a party. The discussion, a government organ, has prepared a list of alleged annexationists which is said to include Mr. Squiers and other prominent Americans, as well as Spaniards and Cubans.

Mr. Squiers, while cognizant that there has been some talk of the application by Cuba for annexation as a more or less remote contingency, has not concerned himself with the controversy regarding the treaty, except as the accredited representative of the United States.

An unauthorized report is published that Mr. Squiers' recall will be requested. The report is treated as a joke.

One version of the reason for the government's persistence in upholding the Anglo-Cuban treaty is the possibility that Great Britain will withdraw

namely, to abrogate the autocratic power and grant a constitution by creating a ministry responsible alike to the crown and the representatives of the nation.

#### Witte's Hand to Guide.

The emperor has finally accepted, requesting Count Witte to draft a project which in outline he approved last Sunday when the count agreed to accept the premiership on condition that he could name the ministers and that they should report to the czar only through himself as head of the cabinet.

It is reported that Count Witte, simultaneously with the promulgation of the cabinet statute, will issue a proclamation defining his policy and asking the nation to give a fair trial to the new governmental system and resist the efforts of the revolutionaries to throw the entire country into a state of anarchy.

Upon the pre-emptory demand of Prince Hikoof, the minister of railroads, the budget covering the remuneration of railroad employees will be revised to meet the promises made last spring. Unless this was done the prince announced that he would resign.

#### To Sell Arms to Strikers.

The socialist leaders are organizing a movement for the sale of arms to the strikers. The source of the funds, which apparently are at the command of the revolutionists, is a mystery. In Moscow, the revolutionary committee is paying strikers 15 cents daily, and has invested large sums in arms and ammunition. The rifles and cartridges recently taken in Finland and Poland were part of those purchased by the committee. It is conjectured that financial aid is being received from socialists and revolutionists abroad, and that some of it may come from America, in response to an appeal published recently in New York newspapers on behalf of the Jewish fund.

## STATISTICS OF ROCK CO. CROPS

IN THE ASSESSMENT ABSTRACT  
COMPILED BY CLERK LEE.

83,813 ACRES OF CORN WERE

Planted During Season Just Closed—  
Over 2,798,000 Pounds of But-  
ter Turned Out in 1904.

In the abstract of assessment com-  
piled by County Clerk Howard W.  
Lee and recently printed in pamphlet  
form appear some very interesting  
statistics of the agricultural products  
of Rock county. Corn, to which 83,813  
acres were devoted, has a long lead  
over all other products. Of oats there  
were grown this year 48,800 acres and  
of barley 28,683 acres. Rye was grown  
on 11,094 acres and potatoes on 2,  
688 acres. This was once a great  
wheat-growing country but the item of  
457 acres, compared with those that  
have just been quoted seems almost  
ridiculous.

**Vegetables and Fruits.**  
The total acreage of beets, as given,  
is 3,026 1/2 and of other root crops  
15 1/2. Apple orchards covered 900  
acres and there were 25,337 trees  
that were bearing fruit. Of the small  
fruits there were 85 1/2 acres. The  
plumes of speltz, or German wheat,  
waved on 67 acres but the luscious  
cabbage appears to have flourished on  
only 1 1/2 acres. Has the demand for  
safer kraut fallen off, or are the  
neighboring countries attending to the  
supply? Despite the sugar beet popu-  
larity there were 5,081 1/4 acres of to-  
bacco. Cultivated grasses covered 63,  
880 acres and 27,340 acres were spared  
to growing timber.

**Cattle, Horses and Sheep.**  
Milch cows numbering 27,340 and  
worth considerably more than half a  
million dollars—\$627,892 to be exact—  
have contributed their portion to the  
general prosperity. Of all other cat-  
tle there were 21,074 worth \$267,  
610. Horses of all ages numbered  
12,912 and the assessors valued them  
at \$717,811. Sheep and lambs totaled  
11,000 and they were appraised at  
\$44,560. Of swine four months old,  
or older, there were 23,951 valued at  
\$156,171.

**Where Varied Crops Grew.**  
The town of Union grew the most  
corn (5,533 acres) but the town of  
Porter (5,143 acres) was a close sec-  
ond. To the city of Janesville belongs  
the credit of growing the 1 1/2 acres  
of cabbages. Milton and Beloit (each  
with 72 acres) lead in wheat. Porter  
(with 3,359 acres) led in oats but Rock  
was second (with 3,033) and Center  
third (with 3,022). The towns of  
Clinton, La Prairie, Johnston and  
Harmony led in barley, each having  
over 3,000 acres. Beloit led easily in  
rye and Clinton was the banner town  
for potatoes. Harmony with over 500  
acres is first in sugar beets, and Fulton  
(with 609 acres) is first in tobacco.  
Clinton is the town for apple orchards  
and Center had the honor of growing  
all the speltz raised in the county.  
Iowa has 2,255 of the milk cows and  
Harmony has 696 of the horses. Union  
has 1,646 sheep and with 1,627 hogs  
just barely outstrips Bradford with 1,  
614.

**Some 1904 Statistics.**  
All of the above statistics and many  
more are to be found upon a single  
page of the pamphlet. On another  
page one may discover that the county  
grew 2,299,609 bushels of corn in  
1904 and considerably more than a  
million bushels of oats. It raised  
nearly 700,000 bushels of barley and  
over 121,000 bushels of rye. Over  
281,000 bushels of potatoes, over 20,  
000 bushels of apples, some 3,000  
bushels of strawberries, 337 bushels  
of raspberries, 35 bushels of grapes,  
11 bushels of black berries, and 337  
bushels of currants were harvested.  
There were 59,589 1/2 tons of sugar

### ONLY A SUGGESTION.

But It Has Proven Of Interest and  
Value to Thousands.

Common sense would suggest that  
if one wishes to become fleshy and  
plump it can only result from the  
food we eat and digest and that food  
should be albuminous or flesh-forming  
food, like eggs, beefsteak, and cer-  
tainly, in other words the kinds of  
food that make flesh are the foods  
which form the greater part of our  
daily bills of fare.

But the trouble is that while we  
eat enough and generally too much,  
the stomach, from abuse and over-  
work, does not properly digest and as-  
similate it, which is the reason so  
many people remain thin and under  
weight; the digestive organs do not  
completely digest the food forming  
beefsteak and eggs and similar whole-  
some food.

There are thousands of such who  
are really confirmed dyspeptics, al-  
though they may have no particular  
pain or inconvenience from their  
stomachs.  
If such persons would lay their  
prejudices aside and make a regular  
practice of taking after each meal  
one or two of Stuart's Dyspepsia  
Tablets the food would be quickly  
and thoroughly digested, because  
these tablets contain the natural pep-  
tones and diastase which every weak  
stomach lacks, and by supplying this  
want the stomach is soon enabled to  
reach its natural tone and vigor.  
Stuart's Dyspepsia Tablets digest  
every form of flesh-forming food,  
meat, eggs, bread and potatoes, and  
this is the reason they so quickly  
build up, strengthen and invigorate  
thin, dyspeptic men, women and chil-  
dren.

Invalids and children, even the most  
delicate, use them with marked ben-  
efit as they contain no strong, irri-  
tating drugs, no cathartic nor any  
harmful ingredient.  
Stuart's Dyspepsia Tablets are the  
most successful and most widely  
known of any remedy for stomach  
troubles because they are the most  
reasonable and scientific of modern  
medicines.

Stuart's Dyspepsia Tablets are sold  
by every druggist in the United  
States and Canada as well as in  
Great Britain, at 50 cents for com-  
plete treatment.

Nothing further is required to cure  
any stomach trouble or to make thin,  
nervous, dyspeptic people, strong,  
plump and well.

beets and over 57,000 tons of cul-  
tivated grasses. The pounds of butter  
turned out aggregated 2,798,259 and  
this product was worth \$657,798.  
Cheese totaling 10,800 pounds and  
worth \$1,080 was manufactured. The  
tobacco crop amounted to 4,737,350  
pounds.

(SPECIAL TO THE GAZETTE.)  
Albany, Oct. 27.—George Lewis, a  
well known farmer of Mt. Pleasant  
township was found dead on the floor  
at his home Tuesday morning, when  
his brother Fred awoke to do the early  
chores. The latter retired at an early  
hour Monday evening, leaving his  
brother sitting in a chair reading a  
newspaper. Mr. Lewis was about  
fifty years of age and unmarried. The  
two brothers lived alone, their par-  
ents having been dead several years.  
Mr. Lewis is survived by two sisters,  
Mrs. Byron Comstock of Albany and  
Mrs. Ellen Loveland of Corona, S.  
Dakota, and four brothers, William,  
Elias, and Silas of Albany and Thos.  
of Evansville. This being the third  
brother they have been called upon  
to part with within three years. The  
funeral services were held on Thurs-  
day at the home at 10 o'clock. The  
interment was in the Exeter cemetery.

## THE INTERNATIONAL LIVE STOCK EXPOSITION

As Viewed by Prof. Geo. C. Humphrey  
of Wisconsin.

Fairs and expositions serve a coun-  
try and its people in many ways.  
They generally represent the re-  
sources, possibilities and enter-  
prises of a country, and act as a  
great educational factor.

The greatest wealth of America is  
in her agriculture, and of the many  
phases of this great industry that  
of the live stock husbandry is para-  
mount to all others. The time should  
rapidly come when there is no far-  
ther necessity for our importing  
breeding stock from other countries  
and there should be a feeling of  
patriotism in the breeding and devel-  
oping of American-bred animals  
which shall soon make them the su-  
perior rivals of the world. Where  
this can be materially aided is in the  
show yard. The grand champion  
show yard of America at the present  
time is our International Live Stock  
Exposition held at the Union Stock  
Yards, in Chicago, in the latter part  
of November or early part of De-  
cember of each year. This show  
yard should be looked upon by all  
American people with a great degree  
of pride and feeling of patriotism.  
Its conduct should command a greater  
faith and respect on the part of  
other countries in our strength than  
does our navy and means of national  
defense.

It is, first of all, a great education-  
al factor, more liberal in many ways  
than a great university. It admits  
the youngest to the oldest breeder,  
and teaches all by actual demonstra-  
tion what constitutes the highest  
type of excellence in the classes of  
cattle, sheep, swine and horses ex-  
hibited. It is a business factor in the  
sense that it serves as a great adver-  
tising medium. The thousands of  
visitors learn to have confidence in  
the better class of breeders, and as a  
result of each International Show  
an inspiration goes out which leads  
men to procure a better class of  
breeding animals, which as they are  
transferred to various parts of the  
country, render valuable aid in pro-  
ducing a better class of live stock  
in general.

This year the Exposition will be  
held in a new home, which has ne-  
cessitated a great expense and added  
much to the burden of those who  
are maintaining it. The Exposition  
is not a money-making concern, but  
is an association whose directors are  
a class of public spirited men who  
are carrying the burden of making  
this annual feature in a manner that  
should appeal to every loyal Ameri-  
can breeder.

## SHOPLIFTERS MADE BIG RAID IN BELOIT

But \$800 Worth of Stolen Property  
Was Recovered at United States  
Express Company's Office.

Professional shoplifters—two short,  
thick-set men and a woman—made an  
early morning raid on Beloit mer-  
chants yesterday and before eight  
o'clock had stolen goods valued at  
\$800 from three of the leading dry-  
goods establishments in that city.  
Prompt action on the part of the po-  
lice, however, led to the recovery of  
the missing property at the United  
States Express Co.'s office. City Mar-  
shal Appleby was informed by tele-  
phone and notified the merchants of  
this city to be on the lookout for a  
similar attempt.

**Method of Operation.**  
The gang's method of operation  
was the same in each instance. As  
the trio entered a store one man  
would go back to make a purchase,  
taking the clerks with him, while the  
other two stood waiting. Their ar-  
rangements for storing goods in a  
small space was unsurpassed. At the  
Reiter & Weirick establishment 21  
pairs of trousers and 20 vests were  
taken at one time. A dozen fine coats  
were lifted at the Henry & Holohan  
place and four fine furs were taken  
at Best, Bailey & Co.'s store.

**Loss Discovered at Nine.**  
Sometime after nine o'clock the  
managers in the stores noticed the  
decreased dimensions in some of  
their stocks of fine goods and made  
inquiries. When it was learned that  
there had been an unusually large  
sale, an investigation was instituted.  
In the course of this investigation  
the United States Express Co.'s of-  
fice was reached.

## Celebrated Golden Wedding.

The home of Mr. and Mrs. Lorenzo McKellips of Johnston was the scene of an interesting event on Saturday evening, October 14. The occasion was the fifth anniversary of their marriage. For the celebration of the event, Mr. and Mrs. McKellips had invited about thirty guests consisting of intimate friends and relatives. A much larger number of friends hearing of the proposed celebration decided to be present without invitation and join in congratulations and good wishes for future happiness. At the appointed hour about 123 guests appeared, each bringing with them a portion of the good things of this life. Among those present were a number from a distance; Mr. and Mrs. DeVine of La Crosse, Mr. and Mrs. Foster, Mr. and Mrs. Wm. Bright of Ft. Atkinson, Mr. and Mrs. Hulst and Mrs. Stewart of Richmond, Mr. and Mrs. Wilkins of Fairfield, and Mr. and Mrs. Chesmore of La Prairie. The happy couple were recipients of a number of valuable presents, tokens of the esteem in which they are held, among which were a nut bowl, salad fork, gold chain, a berry spoon, table linen, a gold clock, a marble clock, a shaving set, a morris chair, a rocking chair and a purse of gold coin. The ladies of the community served a delicious dinner. A wedding poem, written by Miss Belle Jameson of Poynton, was read by Miss Leah Proctor of La Prairie.

was visited and Messrs. Reiter & Holohan found a large package con-  
signed to Charles Gann, South Chi-  
cago. The men suspected that it  
might contain their goods and a hole  
was cut and one thrust his hand in-  
side and pulled out a fine fur. A  
second dive brought out a coat which  
was recognized as his own and the  
final result was that the entire booty  
was recovered. Mr. Bort was notified  
and he at first refused to believe that  
he had been robbed, as he had missed  
nothing from the large stock. But  
when shown the goods, he admitted  
that he was quite a loser and joined  
in the search for the men. An in-  
ventory of the package showed all of  
the missing plunder to be there, ex-  
cept two or three cents from Henry  
& Holohan.

**Chicago Office Notified.**  
The express company took up the  
package from the Carlton hotel, where  
they had a call early in the morning.  
Three people stopped there Wednes-  
day night answering the description  
of the shoplifters and the police be-  
lieve that their tracing of the job is  
accurate. Chief Scheibel has notified  
the Chicago office of the Express  
company to be on the lookout for any-  
body calling for the package consigned  
to Charles Gann and an arrest  
may follow. Reports came in later  
of other stores visited by mysterious  
workers. A prominent shoe dealer  
found a pair of his finest ladies' shoes  
in a part of the store they would  
never have been placed unless some-  
body was trying to steal them and  
had been discovered. He could not  
say if there was any other loss. A  
west side merchant found a fine  
dress goods pattern in a doorway,  
where it had evidently been dropped.  
He made a careful examination of  
his stock but did not discover any  
loss.

## TRAINING MEN TO A NICETY AT PRESENT

Coaches King and Holt Are Hard at  
Work on Defenses of Bad-  
gers.

(SPECIAL TO THE GAZETTE.)  
Madison, Wis., Oct. 27.—The Uni-  
versity of Wisconsin football coaches  
are devoting their efforts this week  
largely to improving the defense  
against such smashing style of play  
as is expected to be met when the  
badgers and zippers meet on North-  
rup field in Minneapolis a week  
hence. In this department will be  
made the only change in the badger  
style from the game as played a week  
ago against Chicago. Then it was  
expected that the opposition would  
consist largely in end and tackle  
runs and this expectation was real-  
ized. For Chicago's gains were made  
mostly by runs by blockers and other  
backfield men. Minnesota is expected  
to direct more plays against the Wis-  
consin line. In the scrimmage work  
this week against the second eleven  
and the freshmen, the varsity has  
been drilled mostly on the defense  
and the results are still unsatisfac-  
tory, as the freshmen were able to  
make frequent gains.

A notable "home gathering" of old  
stars of the badger teams of former  
years is assured for the alumni game  
Saturday. A team made up of play-  
ers whose names are traditional with  
the best football ever played at Mad-  
ison will oppose the regulars. It is ex-  
pected that the varsity will be held  
out a time and perhaps scored upon,  
but the old grads being out of condi-  
tion will hardly last long against the  
seasoned subjects of the training ta-  
ble. The provisional line-up of the  
alumni as given out is made up of  
names familiar to all followers of  
college football in the west, being as  
follows: Left end, Gregg; left tackle,  
Hammonson; left guard, Riordan;  
center, Stow; right guard, Lerum;  
right tackle, Curtis; right end, Jun-  
can; quarterback, Fogg; left half-  
back, Pratt; fullback, Driver; right  
halfback, Larson. Pratt, Gregg and  
Fogg were all famous quarterbacks,  
but Gregg and Pratt will play other  
positions. Pratt was for two seasons  
substitute fullback to Pat O'Dea, the  
celebrated kangaroo kicker of Wis-  
consin.

## MANAGER CLOUGH MAY NOT RETIRE

Beloit Correspondent Quotes Him as  
Saying That He Has Been Asked  
to Withdraw Resignation.

H. H. Clough who is reported to  
have resigned as general manager of  
the interurban road is quoted by a  
Beloit correspondent as saying that  
he resigned immediately after the  
transfer of the property to the new  
owners was made, but that he has  
been asked to withdraw his resigna-  
tion, and he will probably do so if the  
extension to Madison is made as plan-  
ned. He did not think it necessary  
for the road to have a general man-  
ager if only the line from Rockford  
to Janesville was operated, since the  
subordinate officers were perfectly  
capable of running the line.

"The Queen of Hearts," as present-  
ed by the Robinson Stock Co. at the  
Myers theatre last evening, pleased  
a good-sized audience. Competent  
actors interpreted the excellent com-  
edy and the moving pictures and spe-  
cialties hit the popular fancy. The  
offering tonight is the melodrama,  
"Deadwood Dick."

Central Wisconsin Medical Society  
Will Convene in Janesville for  
Second Quarterly Meeting.

Members of the Central Wisconsin  
Medical Society will assemble in  
Janesville next Tuesday for their sec-  
ond quarterly meeting. The forenoon  
session will be called to order at the  
assembly room of the city hall  
promptly at ten o'clock. There will  
be a banquet at the Grand hotel, be-  
ginning at 1:15, and Dr. C. S. Shel-  
don of Madison will preside at the  
post-prandial discussion during which  
Rev. R. C. Denison will offer a re-  
sponse to "Medicine and Materialism"  
and W. S. Jeffris to "Lawyers and  
Doctors." Janesville physicians who  
are to read papers and participate in  
the discussions of the morning and  
afternoon are: Dr. James Mills, who  
speaks on "Hay Fever," Dr. J. P.  
Thorne, Dr. J. F. Pembler, Dr. W. H.  
Palmer, and Dr. E. E. Loomis.

**Letter to Mr. S. C. Cobb, Janesville,  
Wisconsin.**  
Dear Sir: A painter complained  
that our cans are too full; unhandy;  
spill.

It's a way we have; 'tis handier not  
to be full; but we have a weakness  
for full measure. Our gallon con-  
tains eight pints; the usual "gallon"  
is seven.

We'll think it over again; but we  
like a full can. How much short  
would you like a barrel? Seven gal-  
lons would be the proportion.  
Short measure suggests that the  
shortage is probably not in the cheap-  
est ingredient.

Guess we'll stick to four quarts to  
a gallon, and fifty gallons a barrel.  
The name to go by is Devco lead-  
and-zinc.

## IT IS

AS EASILY REGULATED AS A LAMP—every door, draft and joint on the famous genuine-ROUND OAK Heating Stove fits. Pains-taking workmanship, right principle of construction, with the best

material money will buy, are the reasons why this famous stove holds the fire, saves the fuel and satisfies the purchaser.

You take no chances when you decide on a ROUND OAK, no matter what kind of fuel you wish to burn—hard coal (with or without magazine), soft coal, coke or wood.

With the hot blast (used only for soft coal), a steady, even fire is secured which consumes the soot and gases; the double fire pot with concentric grate with rim discharge, prevents the formation of clinkers.

Think what a satisfaction that is—just shaking the grate cleans the entire bottom of the fire alike.

There is no other stove like it—others are made to look like it, but there the resemblance stops.

Look for the name on the leg, then you will know it is the original, genuine ROUND OAK.

"Gentlemen, I cordially wish every hardware dealer in this country health, happiness and prosperity."

Janesville Daily Gazette, Friday, Oct. 27, 1865.—Dissolution.—The partnerships existing under the firm name of Sloan, Patten & Bailey, and of Sloan & Bailey, are dissolved by mutual consent. The unfinished business of the firms will be conducted to a close by L. P. Patten, unless otherwise directed. Dated Oct. 26, 1865.

Won the Silver Medal.—At the American Institute Fair, which has just closed in New York, and in which there was a strong competition among washing machines and clothes wringers, Doty's Washing Machine carried off the silver medal as did also the Universal Wringer. Good enough.

Evansville Seminary.—We are pleased to see by the catalogue of the Evansville Seminary that the institution is enjoying a high state of prosperity. The number of students is large, and what is gratifying, is increasing. Much of this prosperity is doubtless owing to the able management of the Principal, Rev. H. Coleman—a finished scholar, an able teacher and an urbane gentleman.

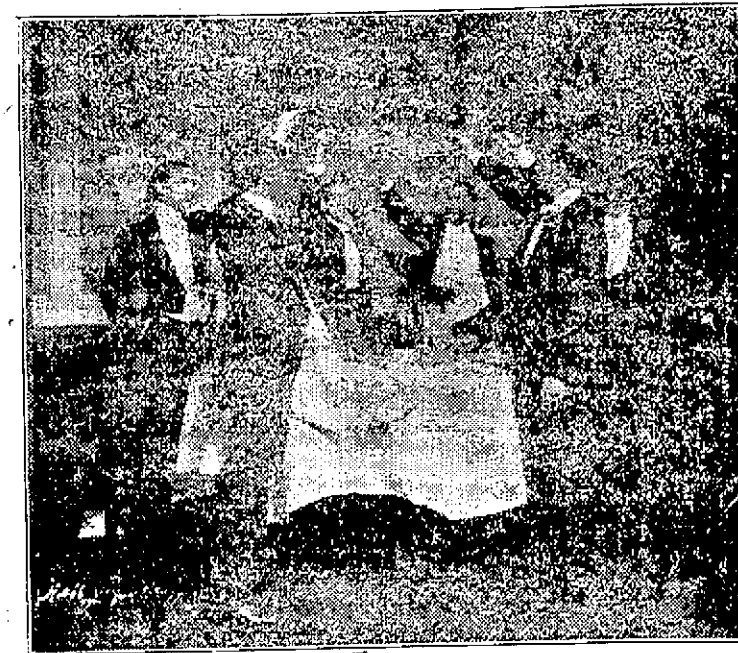

We trust the prosperity of the institution may be ever increasing.

Racine Railroad Sold.—The Racine papers state that the first division of the Racine & Mississippi railroad was sold on the 15th by the U. S. Marshal under judgment of foreclosure for the first mortgage bondholders, and bid off by Mrs. G. A. Thompson, general manager of the road, for \$1,000,000. The Advocate thinks the sale will result to the advantage of the city.

Information Wanted.—Mysteriously disappeared from its Solar residence on Monday last, a brilliant planet, vulgarly called the Sun—since when no tidings have been received from it. Whoever will give information of its whereabouts will confer a great favor upon an afflicted and utterly despondent people.

We knew a little girl once who cried because she could not get the measles as the rest of the children did in her neighborhood. If cholera prevails in this country next year no citizen of Janesville will have occasion to cry because we do not have it here. So far as the sanitary condition of the city is concerned, we are all ready to entertain our expected Asiatic visitor.

## The Truth About Stoves

By the Largest Makers of Stoves and Ranges in the World

MANY people have been deceived in believing that stoves were cheap because of a low price, when experience proves them the most expensive.

A small price may be paid for a stove which looks attractive in the catalogue, which has been described as "perfect," but is liable to prove a very expensive purchaser for ten changes to one, trouble will arise from this stove in a month's time—it may not heat or cook properly, or it may consume fuel like a locomotive. Then the material in the stove itself may wear so poorly that at the end of a year or so it will have to be replaced.

You never get something for nothing in this world, and when you pay a small price for a stove, that price must cover the cost of material and labor, and include a reasonable profit, consequently inferior cast-iron stoves, and the cheapest and most inexperienced labor, must go into this seemingly low-priced stove.

Expert Stove Advice Free. We have opened an "Advice Department," in charge of an expert, simply to tell the people absolutely true about all about stoves. Fair and cooler.

If you think that the value of advertising is exaggerated, why should you not be rather glad to see your business competitor use twice as much space in this newspaper as you use? But would you be glad to see it?

Jerome seems to have New York pretty well hypnotized.

The Chicago horse show is calling forth thousands of dollars worth of dresses.

Secretary Taft says he will not resign his Cabinet job to run for President.

"Hell roaring" Smith is about right. America is no place to loaf in.

"Jim" Davidson is still considering the proposition from a biased standpoint. Is he to be Governor or not?

Vardaman of Mississippi must feel a little lonely just now, and Mississippi somewhat ashamed of its Governor.

President Roosevelt was awarded the "blue ribbon" at the North Carolina fair. He was the only entry in his class.

If McCurdy really means to have a house-cleaning in his insurance company, why not begin right and resign himself.

Its relative standing in the educational world is worrying Chicago university. If Eckersall's right limb holds out it is all right; if he fails, it is in trouble.

This New York insurance scandal appears to have become of such a radical nature that anything would be thought common-place that was not sensational.

Lenroot may be sorry he ever listened to "Bob" and his seductive ways before the time for the spring caucuses comes.

Beloit is to have a new municipal judge. Would it not be funny if after all the talk a Janesville lawyer was thus honored.

The reports of the great naval review at Yokohama does not mention the shades of the admirable ancestors but doubtless they were present.

Captain Mahan's Boston auditors admired his speech but thought it best to leave while he was talking so as to be home for breakfast.

It has been discovered that the full-back on the Northwestern football team is a retired prize fighter and Northwestern is duly shocked that the public found it out.

Governor Folk of the "show me" state woke up to find his home on fire. After saving his wife he went back and did heroic work saving the building. Folk deserves a place among the strenuous.

Roosevelt marched into New Orleans and captured their hearts. The hide-bound old rebel city threw open its doors and waved its flags—our flag—as it had not done since the Mexican war.

Wisconsin took its drubbing from Chicago in good faith last Saturday and is now working to retrieve their loss by defeating Minnesota. If they do this and then take on Michigan for a trimming, they may land at the top of the bunch, despite "Eckle's" wonderful leg after all.

## HUNGARY'S IMPENDING REVOLUTION.

The kingdom of Hungary presents the interesting spectacle of a country marching through absolutism to democracy, and finding in absolutism the means of attaining democracy. That is the meaning of the reappointment of the Fejervary Ministry. It is notorious that that Ministry does not command the support or the confidence of the majority of Parliament, which, under the constitution, should be essential to its continued existence. But then neither would any Ministry acceptable to Parliament have the confidence of the King. Out of that dilemma the King finds a way by reappointing a Ministry acceptable

to himself but not to Parliament, and then in order to avoid votes of lack of confidence and perhaps impeachment of the Ministry, he prorogues Parliament for a couple of months, during which time much may happen. Is it undeniably an exercise of absolutism not less marked than that of King William and Count Bismarck in Prussia in 1862, when Parliament was arbitrarily put out of business session after session in order that the Man of Blood and Iron might govern the country in a way which Parliament would not sanction.

The next important move seems likely to be an appeal to the country in a general election, in which the government will shrewdly force the issue of universal suffrage. The Magyar leaders of the Opposition are almost a unit against such extension of suffrage, fearing it would increase the electoral strength of the non-Magyar elements of population and deprive the Magyars of the absolute ascendancy which they have long enjoyed. But if the government proposes such a measure the Opposition will be put into an awkward dilemma. If it rejects the proposal it will be assuming an unpopular attitude and resisting the liberal progress and popular rule to which it professes to be devoted; while if it accepts the proposal it may compass its own defeat at the polls. The battle cry of universal suffrage would be a formidable one in the campaign, which would greatly enhance the popularity of the King and his Ministers, and would bring odium upon those who opposed it.

Precisely what would be the effect of universal suffrage politically is a question involved in much doubt. Count Tisza has been declaring it would make the Magyars politically subordinate to the other races of that composite kingdom—races which the Magyars regard as their inferiors. Mr. Kristoffy, the Minister of the Interior, argues that such would not be the case, but that the Magyar vote would actually be strengthened, and would comprise 61.4 per cent of the whole, instead of only 56.2, as at present. What is certain is that for many years the Magyars have been growing in strength until they now form a clear majority of the total population. Thus between 1881 and 1901 the Magyars rose from 46.53 to 51.35 per cent, while all others declined, the Germans from 13.61 to 11.88, the Slovaks from 13.49 to 16.62, and the Croatsians, Servians and other minor races in like proportion. In such circumstances the cry that Magyar predominance is threatened by universal suffrage would seem to ring hollow. How far from universal the suffrage now is may be seen from the census. In 1901 the population was 19,254,559, and the number of electors was only 989,009. The proportion of electors to the whole population is thus only a little more than 5 per cent, and it has actually decreased in the last twenty years. That, so liberal and progressive a state as Hungary will continue in this one fundamental respect to be so unprogressive and reactionary is not to be believed. Universal suffrage will surely come, and it would certainly seem to be the best policy for the Magyar leaders to accept it and enjoy the great advantage which, under proper auspices, it appears to promise them.

## PRESS COMMENT.

New York Won't Like It.  
 Chicago Record-Herald: President Roosevelt says all Americans look alike to him. This is likely to make him unpopular in New York and Boston.

After Sleepless Nights.  
 Milwaukee News: It must have been a great relief to Mr. La Follette when he finally decided that he would accept the office of senator which he laid awake nights to get.

Bird-like Sauerkraut.  
 Exchange: With cabbage at fifteen dollars a ton at this season, and the price "looking upward" to a figure twice that high, sauerkraut will also soon become what in sporting circles is denominated a "bird."

Wanted of J. O. Davidson.  
 Milwaukee Sentinel: Some good friend of J. O. Davidson should take the trouble to suggest to him that he make an effort to be a real governor when the time comes next month if only for one year.

Now Here is a Suggestion.  
 Exchange: Rev. G. G. Richards, vicar of St. Peter and Paul's, Teddington, England, has issued a general invitation to the men of his parish to call at the vicarage on Monday evenings throughout the winter for a "friendly pipe and a chat."

Several Tributes Blended.  
 Sheboygan Journal: Behind President Roosevelt on the platform at Mobile was a large stuffed bear, with a floral bell in its mouth, and with a large white dove with wings outspread over its head. This is an artistic combination hard to beat.

Kittenish Ways Vex Wilder  
 Madison Journal: As long as there is a horde of pretty women who travel about the country in comic opera trading on their kittenish ways, it is going to be hard work for the sex to obtain the position of dignity and respect that more thoughtful and serious-minded women desire.

Isn't It Just Terrible?  
 Grantsburg Sentinel: Imagine, if you can, the Apostle Paul or Lord Christ going down the street smoking a pipe or puffing away at a cigar, or filling a room full of tobacco fumes. Yet we have seen some who claim to be co-laborers with the former and immediate representatives of the latter do those things.

Some Very Easy Money.  
 Chicago Record-Herald: It appears

that one of the life insurance companies was in the habit of lending money at 1½ per cent interest to favored persons. By turning the cash over to savings banks the lucky borrowers were able to clear 1½ per cent without assuming any risks or being subjected to any trouble. It must have been one of those lucky gentlemen who invented the phrase "easy money."

Speaker Lenroot's Hurry.  
 Fond du Lac Commonwealth: Speaker Lenroot's hurry about getting the announcement of his candidacy in print is partially explained by the fact that his home town already had a candidate for a state office, in the person of A. C. Titus, who aspires to succeed Sturdevant. There may have been another reason for anxiety, however, in the fact that Senator McGillivray has been sawing wood steadily for several weeks.

## LOCAL NEWS OF THE DAY.

Beloit Sir Knights Here: Beloit officers conferred the Order of the Temple at the regular convocation of the Janesville Commandery of Knights Templar last evening. A number of Beloit Sir Knights, accompanied the officers to this city. Eminent Commander Alexander E. Matheson presided at the ceremonies.

A. O. U. W. Anniversary: At East Side Odd Fellows' hall this evening members of Olive Branch Lodge No. 36, A. O. U. W., will be guests of Olive Lodge No. 27 and Laurel Lodge No. 2, Degree of Honor, at an entertainment given in honor of the 37th anniversary of the founding of the order. A banquet will be served and an enjoyable evening is anticipated.

Pleasant Party: Last evening at the home of her parents on North Jackson street, Miss Winifred Fifield was the hostess at a very pleasant little social affair given in honor of her sister, Miss Ethel Fifield, who is home on a short visit from Milwaukee, where she has been studying kindergarten work. During the evening cards were played, after which dainty light refreshments were served by the hostess. Those present were: Misses Bessie Burch, Pearl Peters, Ida Green, Gladys Heddes, Bertha Yates, Ethel Fifield and Winifred Fifield; and Messrs. Fred Green, George Caldwell, John Galbraith, Chester Morse, Victor Whitton and Harold Dearborn.

Miss Allie Hall: Funeral services over the remains of the late Miss Allie Hall will be held from the residence of her mother, Mrs. Mary A. Hall at 12 Milton avenue Sunday afternoon at half past two O'clock. Rev. Vaughan will be the officiating clergyman.

Doings of Drunks: Pat Goorey, claiming to belong to the honorable profession of Chimney-sweeps, imbibed too much budge last evening and essayed to accompany with his voice a blind musician who was playing a wheezy accordion at the corner of Milwaukee and Main streets last evening. Officer Morrissey stood it for a minute and then hurried Pat off to the bastille. He was released this morning. William Fickelman appeared in court today and paid a fine of \$1 and costs for drunkenness. Miles Penn was sent to the county jail for four days, after which he will pay \$1 and costs, or extend his visit there two more days.

Hurt in a Fall: Philip Sullivan accidentally fell and gashed his head badly on North Main street last evening. He was removed to the Palmer hospital, where Dr. Fred Sutherland dressed his injuries.

TO GIVE TRAITOR  
"THE SQUARE DEAL"

Purpose of Colonel Towsley's Lecture on Benedict Arnold at the High School Tonight.

This evening at eight o'clock in the auditorium of the high school building, Colonel Charles D. Towsley will lecture on "Benedict Arnold," giving the most noted of traitors "the square deal." Colonel Towsley says that from the time Arnold deserted the patriot cause every pen denounced him, every tongue cursed him. The wildest accusations of those enemies who had founded him to his ruin were accepted as sober history. His "General" was denounced as a monster of iniquity that had never possessed a single virtue. Mr. Towsley has won a reputation as a scholar of Revolutionary history, having studied thoroughly every authority and visited many of the battlefields. His research was inspired by an address delivered by the dean of West Point Military Academy, in which attention was called to the tablet in the chapel on which appeared the dates "1741-1801" and from which the name of Arnold had been expunged. Colonel Towsley spoke this afternoon at half past three before the school.

## MRS. JAMES QUIRK, 256 Holmes Street,

was overheard one day this week telling interested friends what a wonderful and interesting experience she had just passed through. It seems that for weeks she has been worrying over the knowledge that she must have a lot of her teeth extracted. So much influence was urged upon her that she should go to Dr. Richards for her work, because he claimed ability to do PAINLESS work, that she decided to go there. Now she says his work did not disappoint her, as he extracted some eight bad teeth without one particle of pain or feeling.

Just think of that. Right here in Janesville. A dentist who actually is extracting, crowning and filling bad teeth without a particle of pain.

Mrs. Quirk would willingly affirm the above, we are sure, should you take the trouble to ask her about it.

## BRICK LAYING MUST BEGIN TOMORROW

Order Received From Headquarters Regarding New Roundhouse Being Built by St. Paul Road.

Orders have been received here from the headquarters of the Chicago, Milwaukee and St. Paul railroad company in Milwaukee to begin the laying of brick on the new roundhouse tomorrow. The concrete foundation is far enough along and window frames on one portion have been erected so that all is in readiness for the masons, but there has been a delay in delivering of sand and the brick work may not be commenced until Monday. James Shearer has the contract for this part of the building. Two foundation walls, one side and the rear, have been completed and operations on the last, there being on wall at the front, only doors, are proceeding rapidly. This third wall is being built on piers and the lower portion comes two feet above the natural surface of the ground, which is several yards lower in this part than the level of the tracks and will necessitate a great deal of filling. The loose earth is naturally expected to greatly expand with frosts this winter and to prevent any lifting of the foundation the lower portion is being laid in angular troughs that will construct a sharp edge on the bottom to cut the ground and push the filling to either side, relieving the walls of the undue pressure. Albert Crumanski, who is in charge of the carpenters, has completed the forms for this wall and the laying of concrete is to commence as soon as the steel rods, which are used as reinforcements, arrive. In all a force of forty men are at work on the building now and Charles Woodruff of Milwaukee, who is superintending the construction, said this morning that he expected to have the walls completed and the roof over them before bitter cold weather sets in. This will make it possible to complete the house during the winter. The plans for the machine-shops are expected at any time now and the location of these, which is yet unknown here, will then be decided upon. With a prolongation of the present spell of weather it will be possible to rush these buildings along to completion before February.

## EXCAVATION LEFT QUITE UNGUARDED

At the Corner of Milwaukee Avenue and Harrison St., Last Night—Several Pedestrians Took Tumbles.

Excavations two feet wide and of a similar depth, made at the corner of Milwaukee avenue and Harrison street for the purpose of putting in curbing, were left unguarded by any danger light last evening in direct violation of the ordinance recently introduced by Ald. Merritt and passed by the council. Darkness had not enshrouded the neighborhood long before several pedestrians had pitched into the hole. Complaints were made to Street Commissioner Bennett and he made haste to hang out a red lantern in front of the dangerous place.

1,012 LICENSES TO

ROCK CO. HUNTERS

Total of 462 Have Been Issued During the Present Month—Demand Still Brisk.

One thousand and twelve hunters of Rock county have paid a dollar each into the state's coffers for the privilege of pursuing the mud-hen, the timid rabbit, and the occasional duck to be found in this locality. The total issued thus far this month is 462 and it is expected that this number will be increased to 500 before the beginning of November. According to law the hunter must take out the license in the county in which he resides, regardless of the scene of his operations with firearms.

## MILTON JUNCTION IS TO BE BUSY SHORTLY

Two Tobacco Warehouses Will Be Opened This Winter Employing Many Hands.

That the coming season will be a busy one in Milton Junction seems evident, and there is every prospect of unusual activity in the tobacco work. It is definitely asserted that the Paul warehouse (formerly Partridge's) will run with a force of about thirty hands, while efforts are being made toward the opening of the Gates warehouse as well. Should these two warehouses run during the season it would mean furnishing employment for sixty or seventy hands at a good rate.

HIGH SCHOOL WILL BE REPRESENTED BY QUALIFIED TEAM

Post-Graduates, Who Strengthened Eleven Last Saturday, Will Probably Not Play Tomorrow.

In the game with the deaf mutes from the State school at Delavan to be played tomorrow afternoon at Athletic park in this city, an entirely qualified eleven will probably represent the local high school. It will be necessary to play a full school team against Fort Atkinson on November 4 and South Side Milwaukee the following week, and the experience that will be gained tomorrow will be valuable to them at those times. The post-graduates who strengthened the locals against the varsity freshmen last week will probably be given no chance to play. The time of starting the game is earlier than usual, two o'clock being set for the opening of the first half.

## ORGANIST EDDY HAS WITHDRAWN PAPERS

Famous Organist Who Sued His Wife for Divorce Decides Not to Continue Case.

Clarence Eddy of Chicago, the noted organist who played here last winter, has caused his suit for divorce against Sarah Hershey Eddy to be dismissed. The motion for dismissal was made in the supreme court in Chicago nearly two weeks ago. Some mystery surrounds the affair. No reason can be learned for the organist's action, and it is not known whether Mrs. Eddy is in the United States, or whether a reconciliation has been effected.
